"A daily gesture that each of us do when the darkness arises. A familiar ritual, which represents joy, safety, dedicated to the time spent together.

Turning on a light is a simple action, but full of meanings. This is where our story begins."

ideal lux

Light up your moments

Ideal lux **commits every day to becoming** the main point of reference when it comes to choose a lamp that expresses personality through a unique and current piece of furniture.

It all began in 1974, from the intuition of designing contemporary and accessible lighting accessories. Since then, ideal lux **has been committed to listening** to everyone's needs, proposing a wide variety of lighting styles and **meeting** every functional requirement. Whether it is a family, a business or a person at the beginning of his or her adventure

in a new home, ideal lux promises components **that live up to needs and dreams.**

The strong point, which is not renounceable when we talk about a company close to people, is a catalogue that meets any type of need: **more than 3,000 furnishing accessories** ranging from many product lines, from indoor and outdoor accessories, to the more technical ones.

Giving shape to light

When it comes to indoor solutions, the goal of ideal lux is to **create versatile sets** for all environments, letting **every moment live** with the right atmosphere and offering everyone the opportunity to experiment **with their own idea of home**. Even outside, the solutions offered for outdoor spaces do not sacrifice aesthetics and safety; they remain pleasant **design elements** even when you need some fresh air.

For professional spaces, which **require particular technical attention**, ideal lux has decided to work on many proposals that help distributing the light in the right direction, giving greater colour rendering, without ever losing sight of the design and **making the spaces**

where you create professional relations **unique** too.

However, if on one hand it is a very important commercial goal to guarantee a vast choice and an extensive catalogue, on the other hand Ideal Lux also cultivates with **meticulous care** its **relationship with customers**. How does it do so? By guaranteeing the possibility of purchasing a design product, one that is always updated to the latest trends and that is, above all, accessible to everybody. Whether the preferred style is industrial, minimal, classic, contemporary, modern or eclectic...anyone who so wishes, **can enter the Ideal Lux world**.

For Ideal Lux, a lamp is much more than an object. Illumination has the power to **influence our everyday life**, giving **unique character and personality to the environment**. For this reason, everyday Ideal Lux is committed to listening to people and their stories, with the aim of cultivating an **authentic and spontaneous relationship** with them, finding new points of view and new inspirations through their stories.

Customer Care constitutes an important branch of the Company, distinguishing itself for its attention and dedication to clients and

making reliability one of its main principles. **The attention to people is essential.**

With Ideal Lux, light becomes an element of our everyday life, able to **transform the ordinary into extraordinary**. In order to do so, it is important to select the lighting solution which best fits one's needs, because with the right light, every space can take on a **whole difference form, a completely different story.**

The ordinary is extraordinary

One brand, many people.

Believing in people is a choice we make every day. We put value on our collaborators, growing day after day together and we build lasting and transparent relations with customers and suppliers.

Making design affordable for everyone.

We want to bring design into people's everyday lives with lighting solutions, aesthetically beautiful and functional, but at a contained price.

Know how to listen.

We are committed to understanding the needs and the dreams of the customers and transforming the difficulties into occasions with the aim of constantly ameliorate in this direction.

There is no quality without warranty.

We have extended the warranty of all our technical fittings to 5 years, to guarantee a high quality of both the product and the service.

One brand,
many people.

Know how to
listen.

There is no quality
without warranty.

Making design
affordable for
everyone.

Fly new

Family composed by ceiling lamps with circular base, available with four different diameters (350 mm, 450 mm, 600 mm, 900 mm) and also in SLIM version with a more compact height. Powder coated body with white finish RAL 9016 and black finish RAL 9004, recessed optics (FLY PL) or flush (FLY SLIM) with PMMA microprismatic diffuser with glare control (UGR < 19). The lamp is ready to be integrated with the upright accessory module for the indirect light part. Integrated LED light source; available with 3000 k and 4000 k color temperatures; CRI ≥ 80; LED useful life 50.000 h ; protection IP40, insulation class I. Driver included, integrated in the body, dimmable options available: 1-10V, DALI and Push. Suitable for locations where professional and uniform lighting is required, such as OFFICES and SHOPS. The high color rendering level makes it ideal even for exhibiting spaces and for the enhancement of the products in a showroom and sales area of the RETAIL sector.

PRO

High-tech product with high quality materials, intended for professional use.

Arca **new**

Extruded aluminum linear system compatible with a wide range of lighting fittings with mechanical fixing. The system is anodized and varnished. It is available in black color and for different kind of installations: ceiling, suspension, or flush in plasterboard ceilings. Modules can be assembled according to the desired arrangement. Track modules are available with satin brass finish too. The body section for the ceiling and suspension versions is 42 mm wide and 85 mm high, while the body for recessed version is 86 mm wide and 90 mm high. Both models are available in two lengths: 1000 mm and 3000 mm. Possibility of assembly with different source modules: the WIDE diffusing module, the ACCENT module with UGR control lower than 13, the TRACK, TRACK FLAT or PENDANT modules for SPOT illumination with different emission angles. The CORNER module for angle composition. Integrated LEDs, possibility of color temperature of 3000 K or 4000 K; starting binning ≤ 3 -Step MacAdam; IP20 protection; insulation class III; LED useful life 50.000 h L70B50. The 48Vdc power supply gives great versatility and safety, with reversible settlement that can be modified if necessary. The system is suitable for environments where professional lighting with minimal design is required, such as OFFICES and SHOPS.

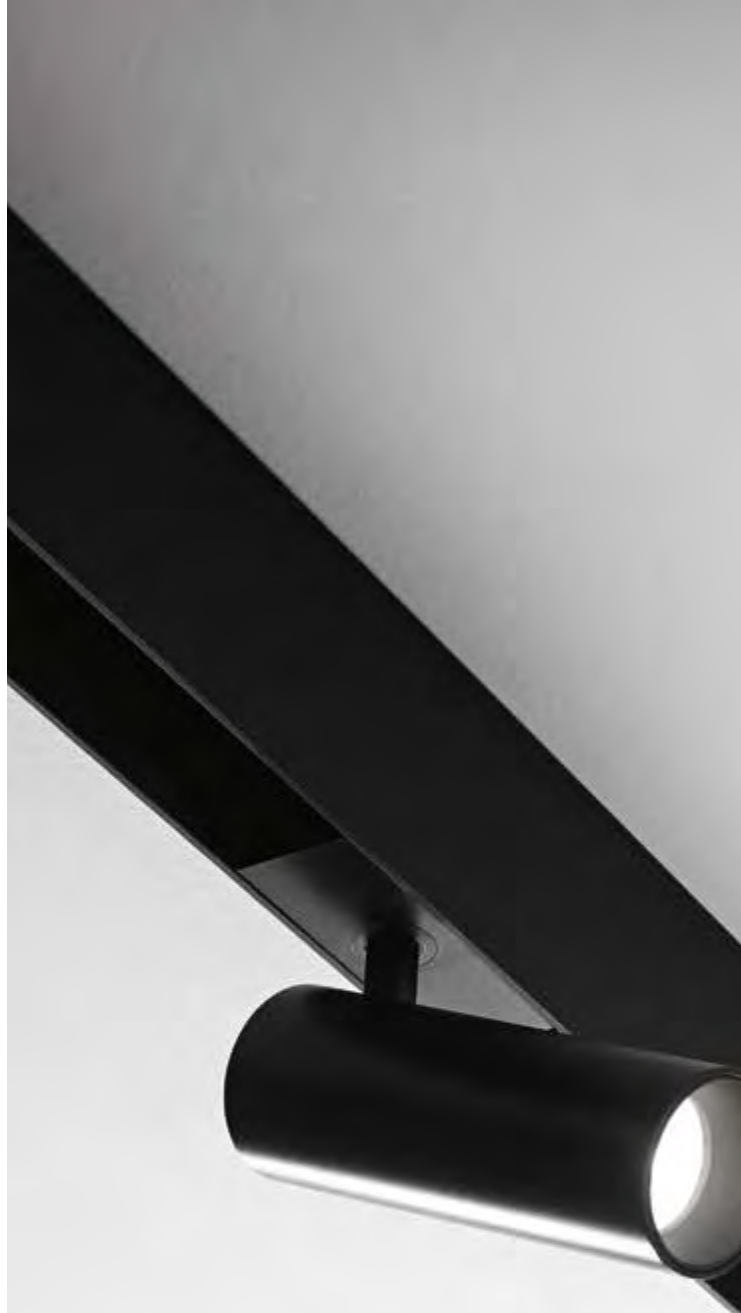

High-tech product with high quality materials, intended for professional use.

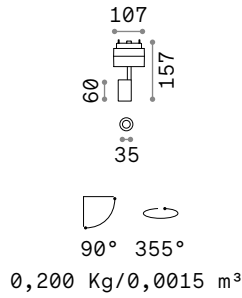

Product with UGR <13, <16 (Accent, Pendant).

Ego ^{new}

Linear system composed of extruded aluminum profile and lighting elements with magnetic fixing and mechanical safety lock. The system is available in black, white or satin brass color for ceiling, suspended or recessed installation. The profile section is 26 mm wide and 27 mm or 52 mm high. Available in two lengths: 1000 mm and 2000 mm. Possibility of assembly with different source modules which can be combined following the desired disposition and can be modified when needed: TRACK SINGLE, DOUBLE and FLAT SINGLE modules for a spot illumination, ACCENT module with glare control (UGR < 19), PENDANT TUBE module for a localized illumination and WIDE modules for a diffused and uniform illumination. Integrated LED with color temperature of 3000k and CRI 90; IP20 protection, insulation class III, 48 Vdc power source,; LED useful life 50.000 h L70B5. The system is also available with 1-10 V or DALI dimmable version. Ideal for lighting small and in large environments where great flexibility and color rendering is required, such as MUSEUMS, COMMERCIAL, RESIDENTIAL and RETAIL spaces.

Fluo

Linear system of lamps with extruded aluminum, 50 mm wide and 80 mm high body. Modules available in two lengths: 1200 mm and 1800 mm, which can be assembled according to the desired arrangement. The system is available in three different arrangements: the WIDE diffusing module, the BI-EMISSION module with component for indirect lighting and the ACCENT module with glare control (UGR < 13); integrated LEDs, color temperature options of 3000K or 4000K, starting binning ≤ 3 -Step MacAdam, IP20 protection, insulation class I; LED useful life 50.000 h L70B50. The system is available in anodized aluminum, white and black colors and it is possible to install it in different ways: single or continuous line for ceiling installation; suspended or flush-mounted in plasterboard ceilings. Included driver, integrated in the lighting fitting, available in 1-10V, DALI and Push dimmable versions. Suitable for locations where professional lighting with minimal design is required, such as OFFICES and SHOPS.

High-tech product with high quality materials, intended for professional use.

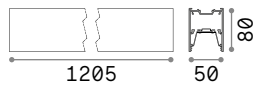

Product with UGR < 13 (Accent).

* Separate switching on of direct and indirect output (available only for on-off versions). Control of the direct and indirect output in synchrony (versions with 1-10V and Push dimming). The dimmable power supplies must be ordered in concomitance with the product and will be included inside the fittings by replacing the on-off power supply. The linear connection is available only for the on-off versions of the products.

Steel

Linear aluminum lamp with direct and indirect light. The indirect light can be turned on or off thanks to the switch positioned on the edge of the fitting. The lamp is available in WIDE model with diffusing downlight optics made of microprismatized PMMA (UGR < 19) and in ACCENT model with black reflector (UGR < 16). Integrated LED sources, available with CCT 3000 K e 4000 K; CRI ≥ 90; lifetime 50.000 h L70B50; IP20. Suitable for offices, business premises and retail.

PRO High-tech product with high quality materials, intended for professional use.

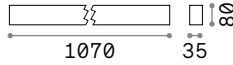

UGR Product with UGR <16 (Accent), <19 (Wide).

Flexible steel tape for wall-to-wall application, used as a support for the strip led application, it can be a light source for indirect lighting. 5 or 10 meters maximum length and its minimal section disappears inside the environment. This guarantees a result of extreme formal elegance.

Available finishes: steel, white or black.
Ideal for environments of historical and architectural feature which already have strong personality.

Vision

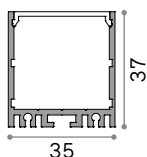

Extruded aluminum profile with anodized and powder coated surface, available in black and white finishes, satin PMMA diffuser. Different lengths bars are available for both the TRIM version, for recessed installation in plasterboard panels or ceilings, and for the TRIMLESS version, for wall and ceiling installation. A kit for suspended installation is available. The linear profiles are available in lengths of 2000 and 3000 mm. They can be assembled according to the desired design and can be sectioned to size. LED strips and drivers must be added to complete the installation: power light sources available with color temperatures of 3000 K and 4000 K, CRI ≥ 90 and IP20 protection index. Highly flexible system, suitable for general lighting in COMMERCIAL environments and in sales areas in the RETAIL sector.

Extruded aluminum body with white anodized or powder coated surface, available in white, black, aluminum finishes, PMMA satin diffuser. Bars with different optional sections and length are available for the RECESSED version for plasterboard ceilings installation and SURFACE version for wall or ceiling installation. The ANGULAR models in the round and square version are designed with an internal angle of inclination of the light source for optimal illumination inside luminous veils and grooves. The linear modules are available in different lengths: 1000, 2000 and 3000 mm. They can be assembled according to the desired design and can be sectioned to size. Led and driver to be combined for a correct installation. Light source available with color temperature of 2700K, 3000K, 4000K; CRI ≥ 80 , ≥ 85 and ≥ 90 ; available with IP20 and IP65 protection.

Quick

Extruded aluminum cylindrical tracklight suitable for installation on three-phase track. White or black powder coating, 355° turning head and 90° adjustable, the power driver is included and located in the cylindrical body of the projector itself. Dimmable 1-10 or DALI version available. Light source with integrated COB LED technology for maximum efficiency, available with a color temperature of 3000K or 4000K; Energy efficient LED with high color rendering, up to CRI ≥ 90; starting binning ≤3-Step MacAdam; symmetrical beam optic with three different emission angles and glare control (UGR <19); assembly and disassembly without tools; IP20 protection; insulation class I; LED useful life 50.000 h L80B50. Ideal for installation in big rooms, where great flexibility and color rendering is required, such as MUSEUM, COMMERCIAL and RETAIL spaces.

PRO High-tech product with high quality materials, intended for professional use.

Smile

Cylindrical aluminum projector (extrusion + CNC manufacturing + forging) suitable for installation on three-phase track. White or black powder coating, 350 ° rotating head and 90 ° adjustable, the power driver is included and is located in the cylindrical body of the projector itself; light source with integrated LED COB technology, available with a color temperature of 3000K or 4000K and with color rendering index up to 90; starting binning ≤ 4-Step MacAdam; symmetrical beam optic with three different emission angles and glare control (UGR <19); assembly and disassembly without tools; IP 20 protection; insulation class II; LED useful life 50.000 h L70B50.

Ideal for the installation in big rooms, where great flexibility and color rendering is required, such as MUSEUM, COMMERCIAL and RETAIL spaces.

UGR Product with UGR <19.

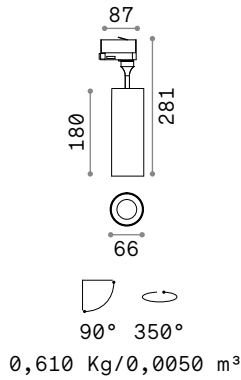

Source	LED COB
Power	15W / 20W / 30W
Driver included	On/Off
Drivers available	No
Track	Three-phase (standard Eutrac)
CCT	3000 K / 4000 K
CRI	≥82 / ≥92
LED life	50.000 h
Insulation class	II
IP	20
Material	Aluminum
Warranty	5 years

Cylindrical aluminum projector suitable for installation on three-phase track. White, black or satin brass powder coating, 350° rotating head and 90° adjustable, the power driver is included and is located in the cylindrical body of the projector itself. 1-10 V or DALI dimmable versions available. The light source with integrated LED COB technology, available with a color temperature of 3000K or 4000K and with color rendering index up to 90; starting binning ≤ 3-Step MacAdam; asymmetric optics with medium aperture beam. Assembly and disassembly without tools. IP 20 protection; LED useful life 30.000 h L70B50. Perfect for lighting the small and medium size environments that require wide flexibility for arrangement, where great flexibility and color rendering is required, such as COMMERCIAL and RETAIL spaces, and an optimal performance-price ratio.

Display

Aluminum linear projector suitable for installation on three-phase track (Eutrac standard), available in three different lengths and with powder coating with white or black finish. The integrated power driver is located inside the track to minimize the volume of the visible product. Available models: WIDE with satin PMMA flat and diffusing optics; UGR with microprismatic PMMA diffuser for glare control and ACCENT with black reflectors (UGR <16). Integrated LED sources; available in CCT 3000 K and 4000 K; CRI ≥ 80; LED useful life 50,000 h L70B50; tool-free assembly and disassembly. Suitable for lighting OFFICES, COMMERCIAL spaces and EXHIBITION areas, it is ideal combined with other track spotlights with focused light.

PRO High-tech product with high quality materials, intended for professional use.

UGR Product with UGR <16 (Accent), <22 (UGR).

Link

Extruded aluminum body for three-phase electrified tracks; powder coating in white or black, optimized for standard Eutrac tracklights. Available in ceiling-mounted, suspension-mounted or flush-mounted in plasterboard ceilings; suitable for continuous linear system installation, standard modules of 2000 mm or 3000 mm. Ideal for installation in big rooms, where great flexibility is required, such as MUSEUM, COMMERCIAL and RETAIL spaces. 5 years warranty.

Link Trimless On/Off

Bento

Modular system of recessed elements consisting of an adjustable source, reflector and ring, with optional shielding lenses and accessories; black and white finish; recessed ring available in single round or square shape, or rectangular in double or triple version for the installation of multiple and independent sources; optional anti-glare band for backward movement of the source in non-adjustable mode; selection of three different emission angles. Light source with integrated COB LED technology for maximum efficiency, available with a color temperature of 3000 K; Energy efficient LED with high color rendering; CRI ≥ 90 ; initial binning ≤ 3 - Step MacAdam; insulation class II; LED life 50,000 h L70B50. Available in both DALI and 1-10V dimmable versions. Thanks to its compact size and great versatility, it is ideal for DOMESTIC, MANAGERIAL and RETAIL indoor installations.

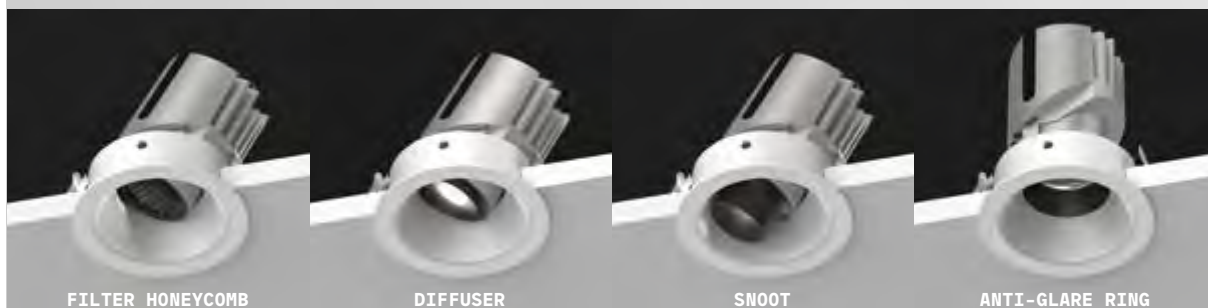

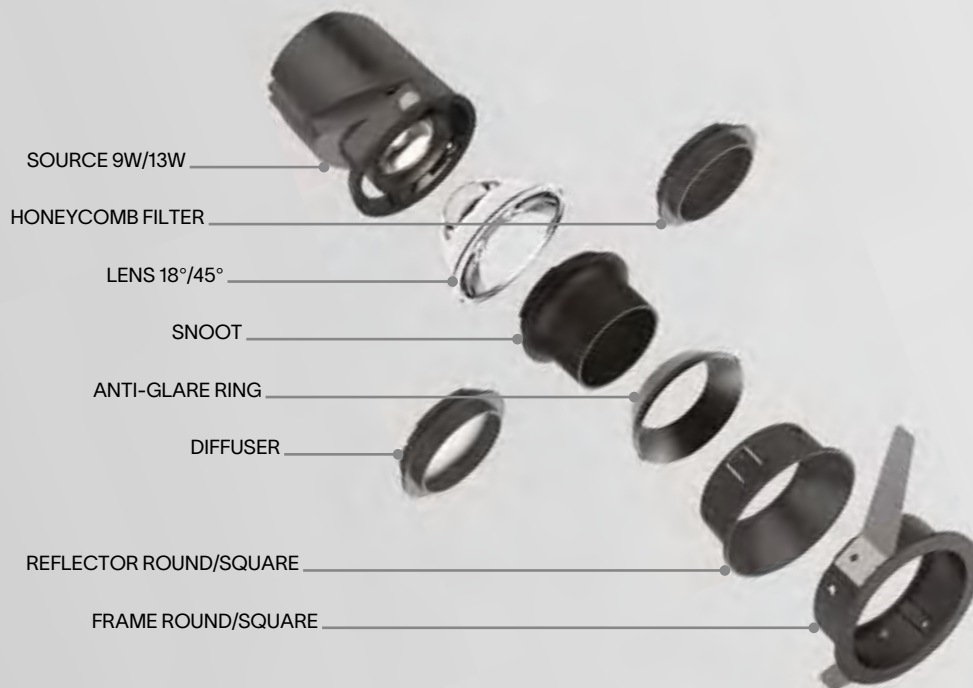

PRO High-tech product with high quality materials, intended for professional use.

Off

Unmovable aluminum recessed fitting with round ring in three different dimensions, suitable for plasterboard ceilings installation. Matt black RAL 9005 and matt white ral 9016 finishes, Passively cooled integrated LED ; COB (Chip on Board) technology for maximum efficiency; UGR < 19; starting binning ≤ 3-Step MacAdam; available with 3000 K and 4000 K color temperature; CRI ≥ 90; front protection IP54 (after installation of the product); insulation class II; dimmable options: 1-10V, DALI and Push; LED useful life 50.000 h L80B50. Suited for OFFICES and MANAGERIAL environments and in general where computers are present and there is the necessity to guarantee a great glare control. The high color rendering level makes it ideal even for exhibiting spaces and for the enhancement of the products in a showroom and sales area of the RETAIL sector.

PRO

High-tech product with high quality materials, intended for professional use.

Lika

Family of recessed rectangular LED modules in die-cast aluminum, painted black or white with shiny black polycarbonate reflector. Available in the TRIM version, with frame, or TRIMLESS, with totally vanishing recessed edge, for installation on plasterboard ceilings. Modules available with two, five or ten light sources. Specially designed to avoid glare (UGR <19), best for installation in OFFICES and SHOPS or in minimal residential environments. Light source with integrated LED; available with 3000 K and 4000 K color temperature; CRI ≥ 90, protection degree IP20, insulation class II; LED useful life 50.000 h L70B50.

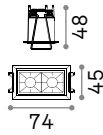

UGR Product with UGR <16.

Rocket Mini

Clear tempered glass diffuser.
Walkable. Integrated LED source.
Absence of visible screws. Available
versions with 1 or 2 lights close to
the ground or with a unique central
accent light.

LED LED source 4000 K, 50.000 h life.

IP68 Protection degree IP68.

S316 Item made of stainless steel 316.

0,280 Kg / 0,0008 m³

Kit emergency

Emergency kit for LED modules. Includes inverter and battery. From two to three hours autonomy and recharging time respectively of 12 and 24 hours. It operates for emergency only or as continuous light (continuous light combined with electronic power supply and dimmable electronic power supply). Insulation class II.

Notes

The finishes represented are for illustrative purpose only. The tones are subjected to variations due to the material type used and to its manufacturing which can modify the output, as a consequence the items classified under the same finish can present some differences concerning color perception.

Technical icons

Class I Electrical safety guaranteed by main insulation and additional protective conductor (earthing) connected with metal lamp frame. Earthing is obligatory.

Class II Electrical safety guaranteed by main insulation and double or reinforced insulation. Earthing not necessary.

Class III Electrical safety guaranteed by very low power supply (less than 50 Volt). Earthing excluded.

Item not appropriate for direct or recessed installation on normally flammable surfaces.

Mark of conformity to European Community Safety regulations.

Symbols

Bulb included.

Items with LED lights: very low consumption, highly bright and focused light, strength and durability.

Integrated switch button.

Lamp with touch switch: switching on and dimming by touching the base with a finger.

Luminaire with dimmer.

Lamp with integrated USB socket.

Up-light included.

High-tech product with high quality materials, intended for professional use.

Product with UGR.

Item suitable for painting and varnishing.

Protection degree.

Item made of stainless steel 316.

Lamp with presence detector included PIR (Passive InfraRed).

Lamp with rechargeable battery included

Notes

-The indicated prices are public prices VAT excluded.

-Ideal lux s.r.l. reserves the right to make, at any time and without notice, all the changes necessary to improve the quality of the items included in this catalogue. For the most updated features, please check the documentation available on our website (www.ideal-lux.com).

-Our products with Class I and II work with nominal Voltage of 220-240 Vac 50/60 Hz. All our products comply with EU legislation.

-Whenever purchased separately as "optional", the DIMMABLE DRIVER will be already included in the product as replacement for the default on-off driver: only one driver will be supplied.

-The Watt indicated in the catalogue express the NOMINAL power of the lighting fitting including source and driver, when present. The Lumen measures referred to the lighting fittings with integrated LED source are nominal, namely referred to the source. We kindly invite you to check

photometry files for the actual Lumen of the single lighting fittings. For further information and updates.

-The UGR rate is not a characteristic of the fitting itself, but of the installation. The UGR values reported in this catalogue are calculated taking into consideration an ideal installation and are regrouped into blocks <10 <13 <16 <19 <22. It is recommended to calculate the specific UGR according to your installation.

-The useful life of the LED sources of all the products in the catalogue refers, when it is not differently declared, to the L70B50 value.
